Guidance for Travellers to Thailand under Treatment Carrying Personal Medications Containing Narcotic Drugs/Psychotropic Substances into Thailand

This guidance issued by the Narcotics Control Division, Food and Drug Administration, provides travellers to Thailand under medical treatment with current regulations concerning the transport of personal medications containing narcotic drugs of Category 2, or psychotropic substances of Categories 2, 3, and 4.

The transport of any medications into/out of Thailand for personal use may be subject to a range of stringent import and export controls.

The import and export of narcotics and/or psychotropic substances into/out of Thailand are general prohibited. Those travellers to Thailand under treatment who need to carry medications containing narcotic drugs and/or psychotropic substances into/out of Thailand must follow the applicable regulations strictly.

With the exception of medications containing narcotic drugs of Category 2 under the Narcotics Act B.E. 2522 (1979), or psychotropic substances of Categories 2, 3, and 4 under the Psychotropic Substances Act B.E. 2518 (1975), the importation/exportation of narcotic drugs or psychotropic substances into/out of Thailand is prohibited.

1. Carrying Personal Medications into Thailand

   A. Medications containing narcotic drugs of category 2

      The Ministry of Public Health issued the Ministerial Regulation B.E. 2552 (2009) under the Narcotics Act B.E. 2522 (1979), amended by the Narcotics Act B.E. 2545 (2002). It became effective on September 29, 2009. According to the new regulation, travellers to Thailand under medical treatment are allowed to carry medications containing narcotic drugs of Category 2 for personal treatment in a quantity not exceeding 30 days of prescribed usage and must follow the applicable regulations strictly.

      Travellers to Thailand under treatment of these medications are required to obtain a permit (Form IC-2) issued by the Food and Drug Administration before travelling to Thailand.
The quantity of the medication transported into Thailand must not exceed 30 days of prescribed usage.

To request for the permit, please apply using online service on http://permitfortraveler.fda.moph.go.th/ at least two weeks before the arrival date. The original copies of the documents must still be sent by post - airmail if possible

The following documents must be submitted:

1.1 Application form (Form IC-1)
1.2 Copy of passport
1.3 Medical prescription written by the physician who provided the medical treatment, which must contain the following:
   ◆ the name and address of the patient
   ◆ the identified medical condition
   ◆ the name of the medications and the reason that those medications were prescribed for the patient's treatment
   ◆ the posology and total amount of medications prescribed
   ◆ the name, address, and license number of the prescribing physician

and/or

1.4 Certificate issued by a competent authority of the country of departure to confirm the patient's legal authorization to carry those medications for personal use. [see Appendix A, Model Form of the Certificate for the Carrying by Travellers under Treatment of Medications Containing Narcotic Drugs and/or Psychotropic Substances]

The category of substances can be searched from http://permitfortraveler.fda.moph.go.th/

Examples of narcotic drugs in Category 2 according to The Narcotics Act B.E. 2522 (1979),: Codeine, Dextropropoxyphene, Dihydrocodeine, Fentanyl, Hydrocodone, Hydromorphone, Methadone, Morphine, Oxycodone and, Pethidine.

B. Medications containing psychotropic substances of categories 2, 3, and 4

According to the Psychotropic Substances Act B.E. 2518 (1975), Travellers to Thailand under treatment are allowed to transport medications containing psychotropic substances of Categories 2, 3, and 4 for personal treatment in a
quantity not exceeding 30 days of prescribed usage when accompanied by a certificate/medical prescription from the prescribing physician. See Appendix B:

The certificate/medical prescription from the prescribing physician must indicate:
- the name and address of the patient
- the identified medical condition
- the name of the medications and the reason that those medications were prescribed for the patient’s treatment
- the posology and total amount of medications prescribed
- the name, address, and license number of the prescribing physician

The quantity of the medications carried into Thailand must not exceed 30 days of prescribed usage. The permit from Thai FDA is not required.

Examples of psychotropic substances in Categories 2, 3, and 4 according to the Psychotropic Substances Act B.E. 2518 (1975):
- Category 2: Buprenorphine, Methylphenidate, Midazolam, Nitrazipam, Phentermine, Temazepam, Triazolam, Zolpidem.
- Category 3: Pentazocine.
- Category 4: Bromazepam, Chlordiazepoxide, Clonazepam, Clorazepate, Diazepam, Oxazepam, Lorazepam, Phenobarbital.

2. Prohibited Medications Containing Narcotic Drugs/

Psychotropic Substances in Thailand

With the exception of medications containing narcotic drugs of Category 2 under the Narcotics Act B.E. 2522 (1979) or psychotropic substances of Categories 2, 3, and 4 under the Psychotropic Substances Act B.E. 2518 (1975) described above, the importation/exportation of medications containing narcotic drugs/psychotropic substances into/out of Thailand is prohibited.

Examples of the medications that Travellers to Thailand are forbidden from transporting into/out of Thailand:

Narcotic drugs:
- Narcotic drugs of Category 1 and 5 under The Narcotics Act B.E. 2522 (1979), e.g. Amphetamine, Dexamphetamine, Cannabis, etc. These substances are prohibited and have been determined to have no medical use in Thailand.

Psychotropic substances:
- Psychotropic substances of Category 1 under The Psychotropic Substances Act
B.E. 2518 (1975) e.g. Cathinone, Dronabinol, GHB. These substances are prohibited and have been determined to have no medical use in Thailand.

4. Advice for Travellers to Thailand carrying Medications

♦ Those travellers carrying medications containing narcotics of category 2 are required to declare the medications they are carrying into/out of Thailand. Please have all medications and documents prepared and available for inspection:
- Entry into Thailand: you must present the medications/documents at the Customs Dept. Red Channel
- Exit from Thailand: you must present the medications/documents at the Customs Dept. official upon request

All related documents should be kept with the traveller throughout their stay in Thailand.

♦ Those travellers carrying all other medications into Thailand (including medications containing psychotropic substances of Categories 2, 3, and 4) do not have to declare their medications at the Customs Dept. Red Channel if the medication is for personal treatment in a quantity not exceeding 30 days of prescribed usage and accompanied by a certificate/medical prescription from the prescribing physician.

Those medications are then considered personal belongings. The prescription/certificate should be kept with the traveller throughout their stay in Thailand.

♦ The medications must be kept in the original prescription bottles with the contents clearly marked.

♦ Travellers to Thailand are forbidden to sell or supply their medications to others.

♦ Travellers must not assume that medications which are legal in foreign countries are also approved for use in Thailand. Those products may be illegal in Thailand. In the case that a traveller’s medications are prohibited from import into Thailand, the traveller should consult their doctor to determine alternate medications.

♦ As requirements concerning medications may change, travellers should check the requirements on http://permitfortraveler.fda.moph.go.th/ for the importation/exportation of medications prior to each visit.

5.) For more information

The information here provides general guidance for Travellers to Thailand carrying personal medications containing narcotic drugs or psychotropic substances.

The travellers can find more information from the website below.

http://permitfortraveler.fda.moph.go.th/
If you have any questions, please email your inquiry to the Narcotics Control Division, Food and Drug Administration, or contact us as follows:

Email: tnarcotics@fda.moph.go.th
Fax: (66) 2591 8471
Telephone: (66) 2590 7346
Appendix A: Model Form of a Certificate for the Carrying by Travellers under Treatment of Medical Preparations Containing Narcotic Drugs and/or Psychotropic Substances

[according to International guidelines for national regulations concerning travellers under treatment with internationally controlled drugs]

A. Country and place of Issue
   Country: 
   Place of issue: 
   Date of issue: 
   Period of validity: [A three month period of validity from the date of issue is recommended.]

B. Prescribing physician
   Last name, first name: 
   Address: 
   Phone: country code, local code, number
   Number of license:

C. Patient
   Last name, first name: 
   Sex: 
   Place of birth: 
   Date of birth: 
   Home address: 
   Number of passport or of identity card: 
   Intended country of destination:

D. Prescribed medical preparation
   Trade name of drug (or its composition): 
   Dosage form: 
   Number of units (tablets, ampoules etc.): 
   International name of the active substance: 
   Concentration of active substance: 
   Total quantity of active substance: 
   Instructions for use: 
   Duration of prescription in days: 
   Remarks:

E. Issuing authority
   Official designation (name) of the authority: 
   Address: 
   Phone: country code, local code, number
   Official seal of the authority: 
   Signature of responsible officer:
Appendix B:

Geneesmiddelen (opiumwet) mee op reis naar Thailand

1. Laat door uw arts een Engelstalige medische verklaring opstellen.
2. Stuur deze verklaring per post naar
   CAK
   afdeling FI / Afgifte Schengenverklaringen
   Postbus 84015
   2508 AA DEN HAAG
   U krijgt uw verklaring in maximaal vier weken retour.
   Kijk op www.hetcak.nl voor meer informatie
3. Laat de verklaring legaliseren door het ministerie van Buitenlandse Zaken (hier is een kleine vergoeding aan verbonden). Dit kan op twee manieren.
   o Persoonlijk bij het Consulair Dienstencentrum van het ministerie van Buitenlandse Zaken:
      Bezuidenhoutseweg 67
      2594 AC DEN HAAG
      09:00-11:30 om ze dezelfde dag mee te kunnen nemen, gemiddelde wachttijd 1 uur
   o Per post:
      Ministerie van Buitenlandse Zaken t.a.v.
      Consulair Dienstencentrum
      Postbus 20061
      2500 EB DEN HAAG
      Let op: vergeet niet uw eigen adresgegevens mee te sturen.
4. Kom vervolgens persoonlijk langs bij de ambassade voor de legalisatie;
   Royal Thai Embassy
   Consular Section
   Laan Copes van Cattenburch 123
   2585 EZ Den Haag
   Openingstijden 09:30-12:00 op werkdagen (hier zijn kosten aan verbonden en de verwerkingsperiode is 2-3 werkdagen)
   Kijk op www.thaiembassy.org/hague voor meer informatie en de dagen waarop wij gesloten zijn.
5. Neem de verklaring met eventueel aanvullende documenten mee op reis.

After hours

12 Do you agree to the department communicating with you by fax, e-mail, or other electronic means?
Yes [ ] Give details
No [ ]

13 Briefly describe the medical treatment you have received in your home country. If insufficient space, attach an additional statement.

Continued on next page →
14 Give details of the doctor in your home country who provided you with medical treatment.
Name and Licence number of doctor.
Address

15 Give the expected date of arrival and departure from Thailand and details of arrangement for your continued care in your home country.

Date of arrival

Date of departure
Details of arrangement. If insufficient space, attach an additional statement

16 Give details of the medical preparations containing substances under control of the Single Convention on Narcotic Drugs, 1961, which the doctor in your home country arranged for you during your stay in Thailand. (For amounts not exceeding 30 days of treatment)
Details of medical preparations (Trade name, generic name, strength and quantity). If insufficient space, attach an additional statement.

17 Give details of your itineraries
Embarkation Port (Port of Departure)
Carrier (airline) / Flight number

Disembarkation Port (Port of Arrival in Thailand)
Carrier (airline) / Flight number

18 Do you have any relatives or friends in Thailand?
NO
Yes Give all relevant details
Name of person
Relationship
Permanent resident of Thailand?
NO Yes
Address

19 During your proposed stay in Thailand, do you have or expect to incur medical costs or require treatment or medical follow up for your medical condition?
NO
Yes Please provide full details.
If insufficient space, attach an additional statement.

Part B – Declaration

20 Applicant
- I declare that the information on this form is complete, correct and up-to-date in every detail.
- I will abide by the condition imposed on the permit granted.
