Note: The reason for issuing this Ministerial Regulation is that at present, the situation concerning AIDS has changed immensely. Prevention of infected aliens on those who are HIV positive into or to reside in the kingdom has no effect on the spread of this disease within the nation. Thus, AIDS should not be set as a disease for prohibiting aliens infected with such disease to travel into or to reside in the kingdom as in accordance with the articles 12 (4) and 44 (2) of the Immigration Act.
